INDIA POISED TO BECOME A GLOBAL HUB OF HOUSEWARE MANUFACTURING & EXPORTS

Mangal Chaudhary
Co-Editor

Dear Importers,

Happy New Year!!

India is on the path to becoming the world's third-largest economy, with its manufacturing sector playing a pivotal role in this growth. Government initiatives like "Make in India" and schemes like PLI are helping expand manufacturing capacities and establish India as a global manufacturing hub. By 2032, India can become a \$10 trillion economy, driven by strong domestic demand, robust exports, and these supportive policies. The manufacturing and export sectors, including the houseware industry, present significant opportunities for growth in the near future.

The Indian houseware industry is undergoing a transformation due to initiatives like BIS certification and the 'Make in India' campaign. The Bureau of Indian Standards (BIS) ensures that products meet stringent quality and safety standards, making them globally competitive. BIS certification enhances consumer trust in products such as cookware, appliances, and furniture, while boosting exports. As global demand for high-quality, reliable goods increases, BIS-certified products position India as a trusted supplier in the international market.

The 'Make in India' campaign has been instrumental in creating a favourable environment for manufacturing investment. It has improved infrastructure, streamlined business processes, and encouraged policy reforms, enabling Indian manufacturers to meet global standards and produce competitively priced goods. The combination of affordable labor, government backing, and a growing consumer base makes India an attractive destination for houseware manufacturing. Together, BIS certification and 'Make in India' are transforming the industry and driving India toward becoming a global manufacturing hub. Looking ahead, India's houseware industry is set to thrive as these initiatives foster quality assurance, cost efficiency, and export growth. With robust policies, global partnerships, and supportive infrastructure, the future of India's houseware manufacturing sector is bright, promising sustained growth and international recognition.

In 2025, "Steel Market Info" celebrating its silver jubilee and is committed to making its 15th Indian Houseware Show even more grand, inviting more and more buyers from across the country and abroad to elevate the show to an international level. This show is scheduled to take place at Pragati Maidan, New Delhi, from July 12-14, 2025, and will surely help boost your business.

We wish all the readers a very Happy New Year. Thank You.

MD	:	Mr. Abhyuday Jindal
Name of Company	:	JINDAL STAINLESS LIMITED
Year of Established	:	1970
Type of Company	:	Manufacturing
Workers Team	:	19,125+
Nature of Business	:	Manufacturer of Stainless Steel Sheets and Coils
Main Product Lines	:	Stainless Steel HR Coil, CR Coils, Coin Blanks, Precision Strips, Blade Steel, Plates, Bloom, Slabs, Chequered Sheets, Girders, Rebars, etc.
Annual Production Capacity (Mt)	:	3 MTPA
Now Production	:	3 MTPA
Main Export Markets	:	Italy, Poland, Spain, Germany, Belgium, Russia, USA, Canada, South Korea, Brazil, Turkey, and UAE

About Jindal Stainless:

India's leading stainless steel manufacturer, Jindal Stainless, has an annual turnover of INR 35,700 crore (US \$4.30 billion) in FY23, and is ramping up its facilities to reach 3 million tonnes of annual melt capacity in FY24. It has two stainless steel manufacturing facilities in India, in the states of Odisha and Haryana. Jindal Stainless has a worldwide network in 15 countries and one service centre in Spain. In India, there are 10 sales offices and six service centres.

Integrated operations have given Jindal Stainless the edge in cost competitiveness and operational efficiency, making it one of the world's top five stainless steel players (ex-China). Founded in 1970, Jindal Stainless continues to be

inspired by a vision for innovation and enriching lives and is committed to social responsibility. The company boasts an excellent workforce, value-driven business operations, customer centricity and the best safety practices in the industry.

JSL remains committed to a greener, sustainable future, fuelled by environmental responsibility. The company manufactures stainless steel using scrap in an electric arc furnace, the least greenhouse gas emission route since it enables 100% recyclability with no reduction in quality, thereby achieving a circular economy. The company aims to reduce carbon emission intensity by 50% well before FY 2035 (from FY 2022 baseline levels of 1.91 tonnes CO₂/tonnes of crude steel) and achieve Net Zero by 2050.

Facilities Production Technology:

- The Company has two facilities for manufacturing of high quality stainless steel. Scrap is melted in ultra-high powered Electric Arc Furnaces with co-jet facility. For refining, it utilizes top and bottom blown Argon-Oxygen Decarburization (AOD) Converter. In addition, it is also endowed with Vacuum-Oxygen Decarburizing (VOD) unit for achieving very low content of Carbon, Hydrogen and Nitrogen. De-oxidation is carried out by high speed multiple wire-injection units and refined steel is continuously cast in slab and bloom caster.
- Cast slabs are Grit-Blasted/Ground using constant power grinding machine. Hot rolling of slabs is carried out in a unique Steckel mill provided with Walking Beam Reheating furnace, Roughing Stand and Twin Steckel Stands. Blooms are hot rolled in a 5-stand Semi-continuous Hot Strip Mill.
- Hot Rolled coils are annealed & pickled in continuous Annealing-Pickling lines having scale breaker, shot blasting unit, Electrolytic Sulphuric Acid and Mixed Acid bath. Annealed and Pickled coils are cold rolled in Sendzimer cold rolling mills provided with shape meter for high degree of flatness.
- Annealing & Pickling of cold rolled coils is carried out utilizing Neutral Electrolytic Salt Bath followed by Electrolytic Nitric Acid and Mixed Acid Baths. There is provision of online/offline Skin Pass Mills and Tension Leveler to produce world class lustrous products. Other facilities include Bright Annealing units in cracked ammonia atmosphere and Strip Grinding line to produce desired surface finishes.
- Batteries of Bell Annealing furnaces for annealing ferritics and martensitic grades and Slitting & Shearing lines are provided for finishing the products.

Business Award If Any:

- Golden Peacock National Training Award 2021 given to JSL by Institute of Directors, India
- International Safety Award 2020 & 2021 given to JSHL by British Safety Council
- 'Aeo-2 tier recognition' from International Customs, Department of Revenue (Ministry of Finance) given to JSHL
- 'Smart Importer - Steel Scrap' award given to JSL at Smart Logistics Awards 2019
- 'CII Energy Efficient Award 2019' in Innovation Category given to JSHL
- 'Golden Peacock Environment Management Award 2019' given to JSHL at 21st World Green Congress on Environment Management & Climate Change
- 'State Level Appreciation For Best Support in Apprentice Management Award' given to JSL by Government of Odisha
- 'Best Raw Material Supplier Award' given to Jindal Stainless by Honda Motorcycle & Scooter India
- 'Excellence in Training & Skill Development Award (Platinum)' given to JSL at Manufacturing Today Awards 2019
- '19th GREENTECH Environment Award 2019' given to JSL in Metal & Mining Sector
- 'Workers Education Award 2019' given to JSL for excellence in Learning and Development activities by Ministry of Labour and Employment, Government Of Odisha
- 'Fame Environment Excellence Award 2019 (Platinum)' given to JSL in Metal & Mining Sector by Foundation for Accelerated Mass Empowerment
- 'Supplier Excellence Award' by Whirlpool & Suzler.

COMPANY INTRODUCTION

Since 1984 JAGDAMBA is a leading Manufacturer & Exporter of Stainless Steel Flatware, Kitchen Tools, Utensils, Bar Items, Flatware, Bathroom Accessories, Tableware & Gadgets, Nonstick Cookware, Stainless Steel Cookware, Hotelware, Shoo. Its inception JAGDAMBA emerged as a leader in break-through innovation with Stainless Steel ware. It scaled new heights in manufacturing Stainless Steel metal press components and fabricated items with exports worldwide. We provide OEM services also. Believing in values of quality & commitment and continuous endeavour to satisfy customer JAGDAMBA is dedicatedly serving. Departmental Stores, Chain Stores, Super Market, Hyper Market and Wholesale Importers across the GLOBE.

Factory details

Total factory area : 1.3 million sq. ft.
Established : 1984

Staff Details

Management Executive : 65
R&D Staff : 20
Sales & Marketing : 35
Production Staff : 1510
Q. C. Staff : 20

Main Products : Stainless Steel Flatware, Kitchen Tools, Utensils, Bar Items, Flatware, Bathroom Accessories, Tableware & Gadgets, Nonstick Cookware, Stainless Steel Cookware, Hotelware

Total Annual Turnover : US \$ 35.0 million

Monthly Capacity : 700-800 tons

Quality Standard : ISO 9001-2015

Quality Certificate : Food Safe - FDA Prop 65, LFGB, BS6748, EN1338 & Dishwasher Safe, Corrosion Free, ISTA Packagin etc.

Compliance/Audit : SA 8000, BSCI, SEDEX 4 PILLAR, C-TPAT, ENVIRONMENT

Raw Material Used : AISI 200/300/400 Series, 14/1, 18/8, 18/10, 18/0, 13/0,

Origin of Raw Material

i) Indian : 90%
ii) Imported : 10%

Major Market : Europe, USA, South America, Australia, UK, Japan, Korea, Middle East etc.

Why Jagdamba

- EXPERTISE IN STAINLESS STEEL SINCE 1984
- ONE STOP SHOP FOR COMPLETE STAINLESS STEEL KITCHENWARE & HOUSEWARE RANGE.
- BEST PRICE CHALLENGE.
- MOULD THROUGH CNC MACHINES/ SAMPLES BY 3D PRINTERS.
- IN HOUSE DESIGNING TEAM FOR PRODUCT AND PACKAGING.
- READYMADE RETAIL SELLING CONCEPTS
- INHOUSE TESTING LAB
- WELL TRAINED QC/QA TEAM.
- SOCIALLY & TECHNICALLY COMPLIANCE FACTORY
- AUTOMATIC WORKSHOP & POLISHING THROUGH SEMI AUTOMATIC MACHINES.
- INNOVATIVE FUTURISTIC VISION.
